- Mission Statement: Our mission is to assist excavators, facility owners, and the public in the prevention of underground damages, service outages, personal injury, and their associated repercussions, through education and the promotion of the One Call System.
- 47 members were present.
- Those present gave the customary introductions.
- Steve Keyser made a motion to approve minutes as amended, Mark Gemmill seconded, unanimously approved by the members.

2. Presentation- Brian Simmons, One Call Concepts: Training on the New ITIC Method for Online White Lining

- Mr. Simmons reviewed the new ITIC online white lining method for outlining the scope of a proposed excavation area. The new system will be available in June, 2017. Both online and classroom training will be available, including today's training session. Tickets limited to ¼ mile.
- Brad Ebaugh reviewed hazardous work conditions and damage data for April, 2017.

3. Excavator Concerns

- Utility Lines Construction (ULCS)- Problem with 48 hr. delays with Comcast and other telecoms (USIC locates). Working for DPL electric. Wendy Stack's company is fully staffed, but playing catch up with the backlog. The Verizon issue with clearing tickets is still a system problem. Contractors need to look for clear evidence of above ground utilities. Excavators can use the discrepancy option. This has been a problem for more than a year. If damages occur, feel free to call Judy Lonsdale.
- ULCS: Comcast/Mediacom is experiencing the same problems, including bad address status delays and expired tickets.
